

How to Manage Doctor

1. Once the list of doctors appeared, click this button to manage the users information.

2. When the doctor's information is already displayed, click first the **Edit** button to proceed in updating/editing information.

3. After that, choose a detail/field that needed to be update/edit, then click **Save** button when ready.

The screenshot shows a form for updating a doctor's profile in the Medical Records System. The form is divided into several sections with input fields for various details. A red arrow points to the 'Save' button at the bottom right.
