**How to Restore**

1. In the side selection click the navigation **Maintenance** and below click **Backup and Restore**.

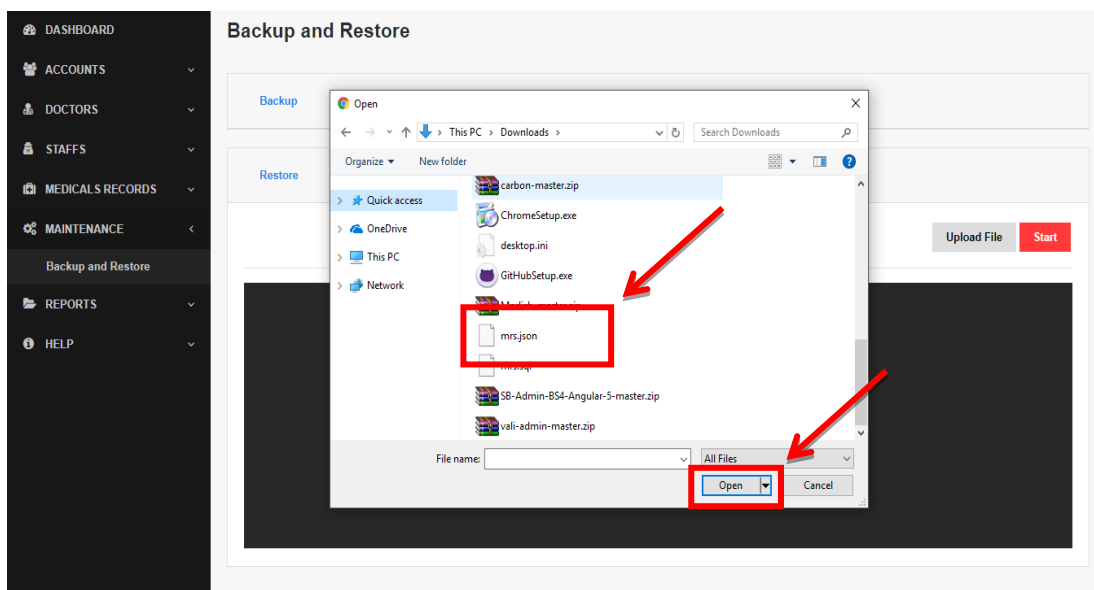

2. Then click **Restore** to view the main form.
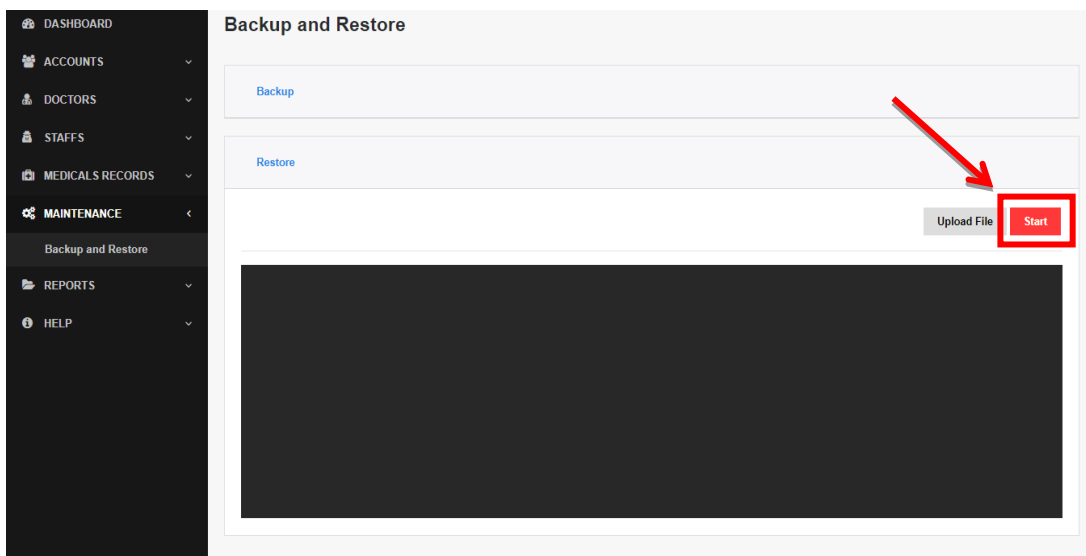

3. To begin in restoring the file, click the **Upload File** button.

4. Afterwards, a form will appear and find the name of file that will be going to restore, and click **Open** when ready.

5. After choosing the file, click **Start** button to continue restoring.

6. File completely restored.
